A College Preparatory School

Position: Middle and Upper School Math Specialist

Reports to: Middle and Upper School Directors

About CIS

CIS is a college preparatory independent school with a rich history of whole-child education and a global perspective. The focus of the curriculum is to provide an individualized educational experience for each student and to foster the pursuit of excellence and joy in learning and living. Class sizes are intentionally small to facilitate high quality teaching and mentorship.

Job Summary

CIS is seeking a Middle and Upper School Math Specialist who will work closely with teachers and division directors to provide math support for students primarily in grades 6-12. The Math Specialist works individually and in groups with students; collaborates with the Coordinator of Learning Support to design Middle School and Upper School Service Plans; oversees accommodations; teaches Learn to Learn, a sixth-grade study skills and executive functioning class; and serves as a Middle School advisory leader.

Essential Duties and Responsibilities

- Provide small group math instruction for students in 6th- 12th grade.
- Teach 6th Grade Learn to Learn.
- Supervise study hall(s).
- Organize and maintain Check-In and Check-Out for students needing support with organizational skills.
- Work in a team approach to ensure classroom accommodations are implemented as established by the coordinator of learning support and college counselor.
- Perform other duties as assigned.

Qualifications

- Bachelor's degree; secondary math preferred
- Proficiency with remedial math support for grades 6-12
- Minimum of 2-5 years teaching experience is preferred
- Demonstrated passion for working with children and an understanding of the developmental needs of the age group
